Activating your account

Welcome to our online portal, the first step in accessing your bookings if you are new, is to activate your account.

You will need your **booking reference**, the **email address** you received your confirmation email to, and to create a password.

If your activation was successful, you will now be able to log into your account.

If you are having problems logging in please make sure there are no additional spaces in your email address or booking reference and that the passwords match.

The screenshot shows the MyNautilus account activation interface. At the top left is the MyNautilus logo, and at the top right is the phone number 01732 867445 with contact hours: Outside the UK: +44 1732 867 445, Mon-Fri: 0900 - 1730, Sat: 1000 - 1500. Below the header is a horizontal line. The main content area has the heading "Welcome to MyNautilus" and the instruction "Please enter your booking reference, email and create a password to activate your account". There are four input fields: "Booking reference", "Email", "Password", and "Confirm Password". Below the fields is a green "Confirm" button. At the bottom left is the British Marine logo, and at the bottom right is the copyright notice "© 2022 Nautilus Yachting Ltd".

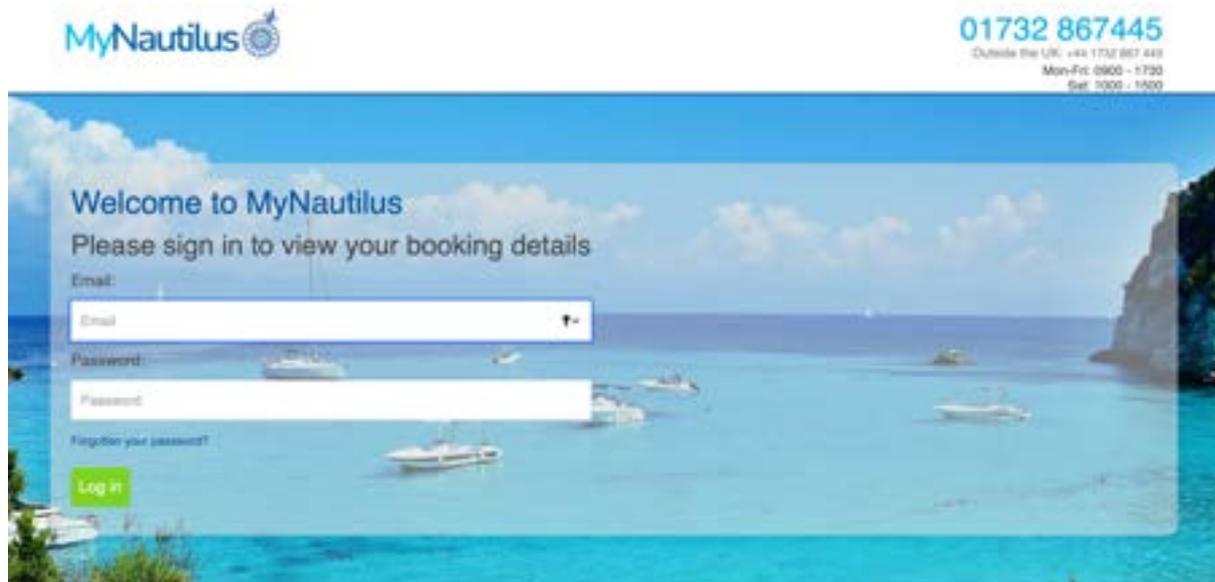

Logging in to your account

MyNautilus can be accessed directly from this link

<https://mynautilus.nautilusyachting.com/login.php> or via our main [Nautilus Yachting](#) website and clicking the link in the top menu.

You will need your **email address** and the password you set in your activation.

Occasionally, if you use browser plugins of software to store your passwords it can save your booking reference instead of your email address. Please check this if you are having trouble logging in.

Forgotten your password?

If you can't remember your password to log in or you are having difficulties logging in you can use the **Forgotten Password** link below the password field on the log in screen.

You need to enter the **email address** you use to log in and you will be sent an email with a special **reset** link allowing you to create a new password.

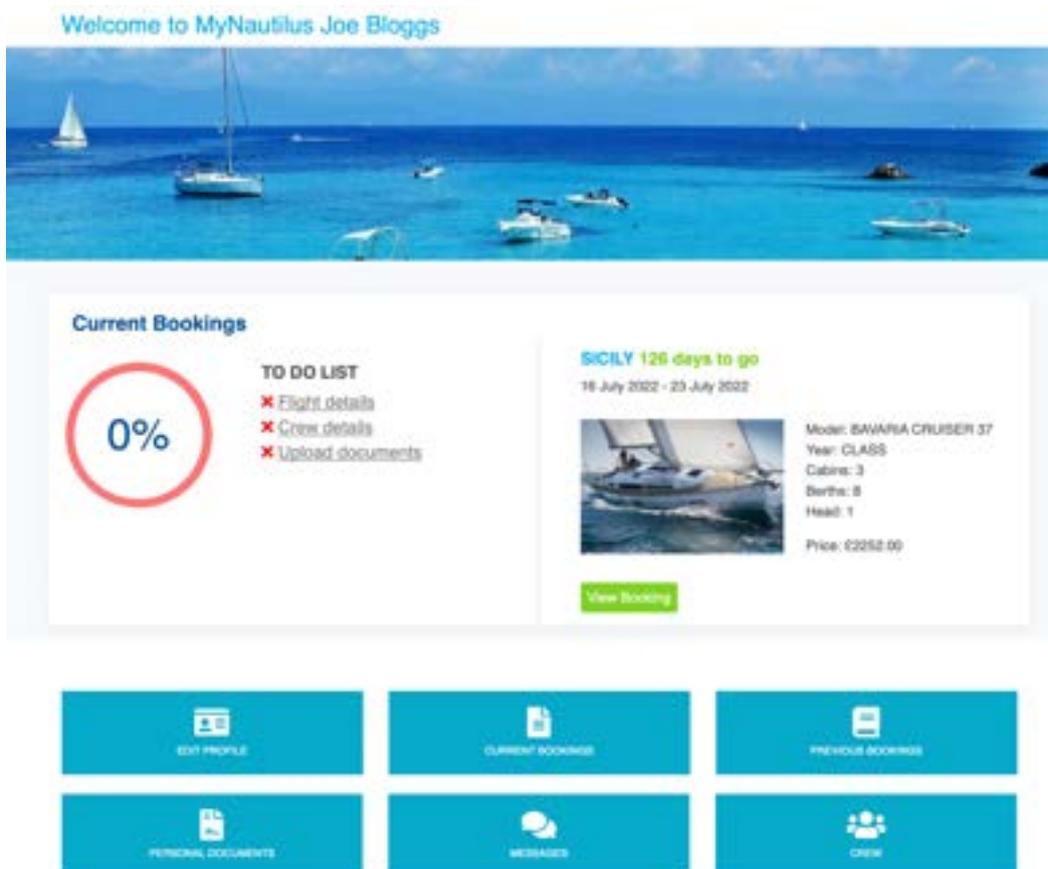

Getting started

Once you have logged in you will be greeted with your home screen and a list of any current bookings.

From here you can also access the following from blue buttons located at the bottom of the screen:

- Edit your profile information
- A list of your current bookings
- Your historic bookings
- Any personal documents you have uploaded e.g. passports & licenses
- Crew details you have saved

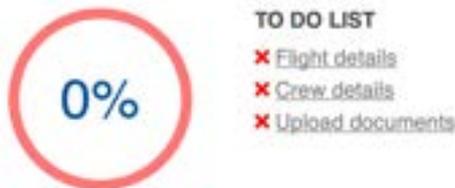

View booking

By clicking **green view booking** button on any of your current bookings you will see a complete overview of you booking. This includes a list of any Crew, Flights or Documents currently assigned to your booking.

The 'TO DO' List

Initially you will see the following options:

By completing these section you will see the red wheel turn green so you can keep track of your progress.

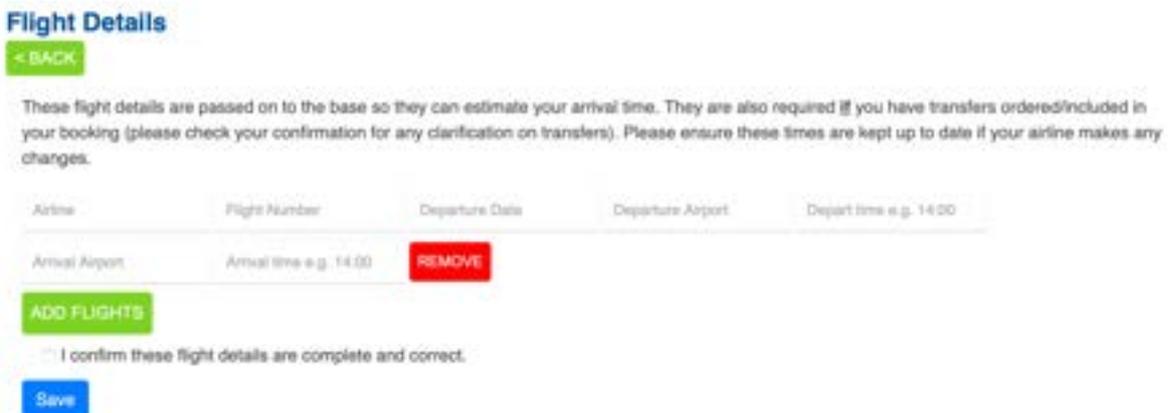

Flight Details

This screen will allow you to add your **arrival** and **departure** flights, this is vital information that will be passed on to the base so they can prepare for your trip.

Adding flights

By clicking the **ADD FLIGHTS** button you will create a set of form fields to enter you flight details. You can **click this as many times as you need** to enter details of all of your arrival and departure flights.

You can **save** periodically in case you don't currently have all the details and continue filling it in later.

These flight details are passed on to the base so they can estimate your arrival time. They are also required if you have transfers ordered/included in your booking (please check your confirmation for any clarification on transfers). Please ensure these times are kept up to date if your airline makes any changes.

ADD FLIGHTS

I confirm these flight details are complete and correct.

Once you have completed all your details you need to tick the box next to '**I confirm these flight details are complete and correct**' then click **Save**. This will then email the customer care team to let us know you have completed your flight details and we can send them to the base.

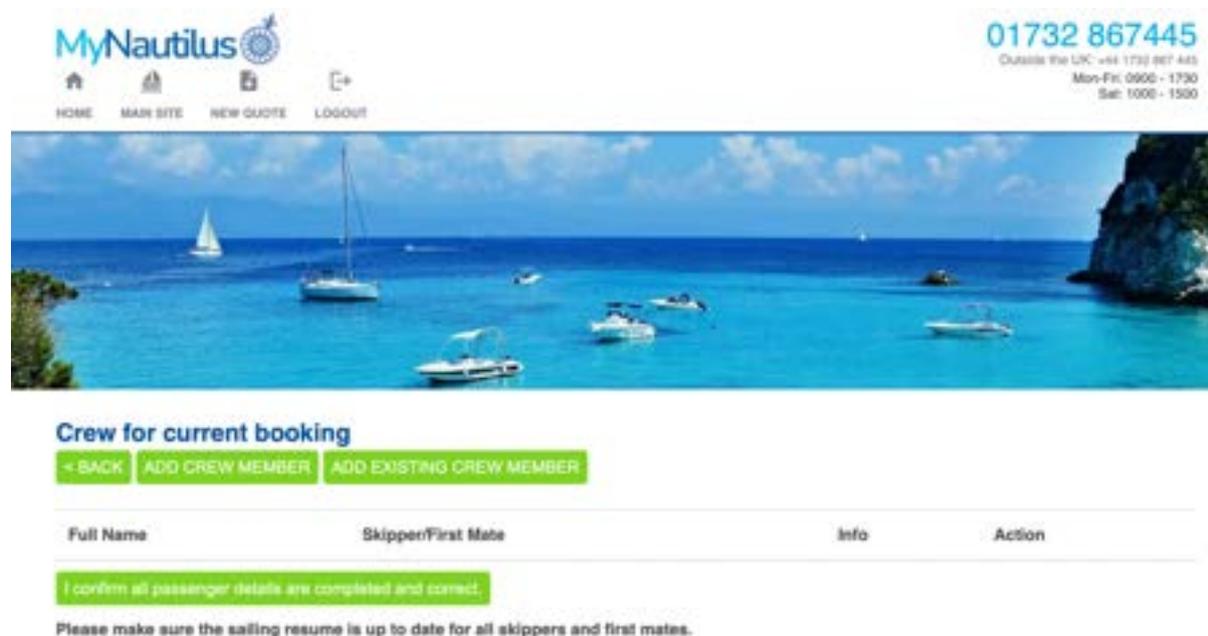

What happens if my flight details change?

If any of your details change you can keep them updated by changing the details on the flights details page, even after you have confirmed them, **up to 7 days before** your trip.

You will notice the text next to the tick box now reads **Send these updated flight details to Nautilus Yachting**. Just as with your first confirmation you will need to tick this and then click save. It will again send our team an email and we can inform the base of any changes.

Crew Details

Initially you will be greeted with a blank list. There are 2 ways to add crew to this list

Please make sure the sailing resume is up to date for all skippers and first mates.

‘Jane’ has now been added to the list however there are now some messages so we will need to go in and edit this customer.

The current error messages show we haven’t assigned any flights to this crew member. ***If you only have one set of arrival and departure flights for all crew members, they will be automatically assigned for you. The same is true if you have multiple yachts booked you will need to edit the customer to assign them to the correct yacht so we can inform the base which crew member will be on which yacht.***

Clicking Edit Passenger in the ‘Actions’ column of the crew table will take you to this form:

Below the table, there is a green confirmation box that says: "I confirm all document details are completed and correct, including all personal documents." Underneath this is a note: "Please be sure you have uploaded and attached (using ADD EXISTING DOCUMENTS) any relevant personal documents including passports and sailing certificates."

If you have previously uploaded documents for previous trips via MyNautilus you can select them from 'ADD EXISTING DOCUMENT' green button.

The screenshot shows a web interface titled "Personal Documents". At the top, there is a green "< BACK" button. Below it is a table with the following data:
